FALL BULBS—1928

E take pleasure in presenting our ANNUAL BULB CATALOG for your early consideration. We have assurance from our Holland growers that the Hyacinths, Tulips and other Bulbs shipped to us will all be first size and of quality equal to that supplied to us in former years.

Our Narcissus and other home-grown bulbs are procured from the most reliable growers of the finest stock procurable.

We thank our numerous patrons and friends for their continued confidence in our goods, which has enabled us to be proud of their patronage, and we hope to still maintain the standard and quality of our bulbs in the future as in the past.

Our patrons will always find courteous treatment from our fellow-workers who have so greatly aided us in the expansion of our business.

W. E. MARSHALL, President A. E. WHEELER, Treasurer HARRY J. RUTE, Secretary

Telephone, Chelsea 3288.

W. E. MARSHALL & CO., Inc.

150 West 23rd Street, New York

July, 1928

BULBS FOR NATURALIZING

The following bulbous plants are best adapted for naturalization: CHIONODOXA, CROCUS, ERANTHIS, FRITILLARIAS, GRAPE HYACINTHS, NARCISSUS, SCILLAS and SNOWDROPS.

A full description of the above varieties will be found in this catalogue.

ORDER EARLY

We request our customers to order as early as possible on receipt of Catalogue. Orders will be shipped as Bulbs and Roots arrive during the season for planting.

Marshall's Matchless Darwin Tulips

Darwin Tulips are highly recommended for massing in shrubbery and for providing contrasting colors in the Spring garden. In form, the blooms are entirely distinct from all other classes of Tulips; they are unusually large and are borne on long stems. They may be forced if heavest to the heat not earlier than January be forced if brought to the heat not earlier than January.

The heights of flowers are given in inches. Varieties marked with a * are good for forcing.

MIXED COTTAGE TULIPS

This mixture is made by ourselves from the named varieties. Doz. 60c., 100 \$4.00.

150 WEST 23d STREET, NEW YORK

Marshall's Single Early Tulips

Tulips for bedding are the most popular and effective of all hardy, bulbous plants. In our descriptions we give the color and average height to which they grow. For pot culture and forcing for Winter cut flowers they are invaluable.

For outdoor planting, 4 inches to the bottom of the bulb is deep enough, and a distance of 5 to 6 inches between the bulbs is sufficient. They may be planted in October and November, before the ground freezes. For pot culture, a compost of two parts loam to one part light manure, with some sand intermixed, is suitable. From three to five bulbs, according to size, in a 5-inch pot, are very effective. The pot should be buried until the bulbs are well rooted.

A, B, and C indicate season for flowering. A and B may be planted to flower about the same time in the open ground; C flowers later. The figures indicate average height in inches.

Tulip Species

Clusiana (See colored illustration on inside back cover). A botanical species of great charm. The long, narrow, pointed flowers are white, flushed cherry red with a violet base. Fine for forcing and naturalizing and superb for permanent planting in the rock garden and borders. Doz. \$1.00, 100 \$6.50, 1000 \$60.00.

Greigi (See colored illustration on back cover). An uncommonly attractive species of a bright flame red, the open flowers showing a blue-black base and large stigma. The foliage is distinctive, being mottled and blotched with brown. Excellent for rock gardens and borders. Doz. \$5.00, 100 \$35.00.

100

Camassias

There are few bulbous plants that meet climatic or soil conditions better or give a more attractive bloom. They are hardy without protection, and thrive either under ordinary garden conditions or when naturalized in open moist woods or in not too dense a grassy growth. The flower stems are 4 feet high with as many as a hundred star-shaped flowers measuring $1\frac{1}{2}$ inches across and flowering in long succession. September delivery.

Esculenta. A purple form, rich in color. Grows 2 ft. high. Very showy in masses . \$0.75 \$4.00

Leichtlini (Sky-blue). Grows 3 ft. high, with as many as one hundred flowers, of the finest form, star-shaped and about 1½ in. across, flowering in long succession. 1.75 12.00

Colchicum (Fall-Flowering Crocus)

Autumnale major. These bulbs bloom early in the Fall and the foliage follows in the Spring. The color is a rosy lavender. They should be planted in September. Each 50c., doz. \$5.00, 100 \$38.00

Postage, 10c. a doz. extra.

Crocus

Very early flowering Spring bulbs for planting in lawns, borders or terraces. Bulbs should be planted in October. They can also be grown in bowls with prepared fiber or pebbles.

Marshall's Named Crocus

David Rizzio. Dark blue.
King of the Whites. Pure white.
Sir Walter Scott. Variegated.
Maximilian. Pure porcelain-blue.
Mont Blane. The finest white.

Price: Doz. 50e., 100 \$3.50, 1000 \$30.00

Golden Yellow. Doz. 60c., 100 \$4.00.

Mixtures of Crocuses

These comprise mixture of shades of colors and are best adapted for outdoor planting.

Large-flowered, White.

Large-flowered, Blue and Purple.

Large-flowered, Striped and Variegated.

Large-flowered, Golden Yellow.

Mixture of All Colors.

Price: Doz. 40c., 100 \$2.50, 1000 \$22.00

Dielytra Spectabilis (Bleedingheart)

Long, drooping racemes of pink blossoms enhanced by ferny foliage. Fall planting is recommended for permanent effects in border or rock garden. It may be gently forced for indoor decoration and when so grown makes a charming and decorative pot plant. October delivery.

Strong, Field-grown Clumps. Each 75c., doz. \$7.50. N If wanted by mail, add 10c. each for postage.

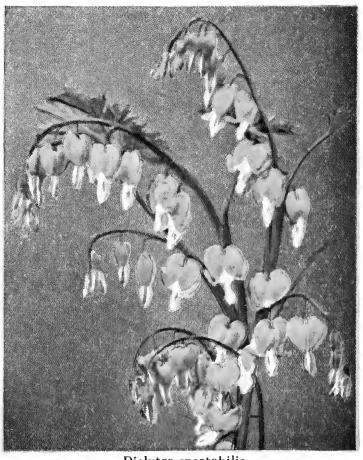

Eranthis Hyemalis (Winter Aconite)

A very hardy bulbous plant with beautiful, bright yellow flowers, produced in early Spring on stems about 6 inches high. Excellent for naturalizing in half shady positions. 50c. per doz., \$3.50 per 100, \$30.00 per 1000.

Erythronium (Dog Tooth Violets)

Charming, Spring-flowering woodland plants that thrive best in shady places where there is a fair amount of moisture. They are always attractive because of their beautifully mottled foliage. Excellent for shady rock gardens. September delivery.

Dielytra spectabilis

Eremurus (Fox-tail Lily or King's Spear)

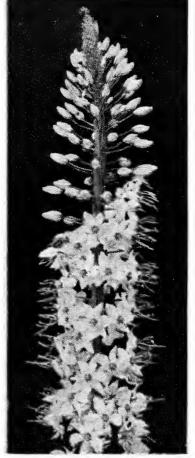

A noble family of hardy plants, most delightful and desirable for stately and colorful groups in large plant borders and shrubberies. They are perfectly hardy, and when well established, produce dozens of giant flower spikes, like huge Hyacinths, attaining a height of from 6 to 10 feet, the flower spike (comprising several hundred flowers) being from 2 to 3 feet long. They are best planted in early Fall and thrive in any sunny, well-drained border. They should be planted in early Fall only, as it is dangerous to disturb them in Spring, when they make an early growth. These wonderful, gigantic flowering plants do not require a great depth of soil, as the fleshy roots spread outwards. The plant disappears above ground after flowering and annuals may be planted close to them to fill the vacant space. A mulching of wood ashes is advised

as a Winter protection for the crowns and when the flower spikes appear in early Spring a slight protection from the late frosts is necessary. We would recommend the Ever Ready Plant Protector, made of weatherproof paper.

The following list includes some of the finest and rarest in commerce, flowering

| in various months, as indicated, in Spring and early Summer. | 0 |
|---|---------|
| Each | 10 |
| Bungei superba (July). Vigorous, enormous spikes of widely expanded flowers of clear yellow. 6 ft\$6.00 | \$55.00 |
| Elwesianus (June). Beautiful, delicate pink flowers, thickly set in tall, noble and stately spikes. 8 to 10 ft | 45.00 |
| Elwesianus albus (June). Pure white flowers similar in form and height to the preceding. A magnificent novelty 7.00 | 65.00 |
| Himalaicus (May to June). Waxy-white flowers with golden anthers, developing huge stems and flower spike. 8 to 10 ft 4.00 | 35.00 |

Fritillaria

Imperialis (Crown Imperial). One of the most characteristic plants of old-fashioned gardens. It is the most robust of all the species. The flowers are borne in umbels on stout stems, 3 to 4 feet high.

Meleagris (Guinea-hen Flower). Fritillaria meleagris is sometimes called "The Checkered Lily." It is a dwarf variety with colors predominating in purple and green.

Recurva (Mission Bells). A free-flowering type that

Pudica. A low plant with a single, clear, bright yellow bell; prefers sandy, loose soil Doz. \$2.00, 100 \$12.00

Kamtschateensis (Lilium camtschateense) (See inside back cover for colored plate). This wonderful Lily-like plant was found in Siberia. The drooping flowers are purple and produced in whorls of ten to fifteen on stems 12 to 18 inches high. It is perfectly hardy and flowers early in the Spring. Each 35c., doz. \$3.50, 100 \$25.00.

Gloriosa Roehrsiana

A gorgeous, Lily-like plant, climbing from 6 to 10 feet high and bearing a profusion of orange-scarlet flowers. A beautiful plant for greenhouse or conservatory use. Dormant tubers. October delivery. Dormant tubers. October delivery. Each \$2.00.

Muscari (Grape Hyacinths)

PEAT MOSS

Granulated Peat Moss can be used for growing all kinds of bulbs in pots or pans.

Small Bale, weight 11 lbs., \$1.50; postage extra.

Large Bale, 13 cu. ft. \$5.00: by express or freight

Fritillaria imperialis

Grape Hyacinths

(MUSCARI)

Charming, hardy Spring-flowering bulbs. They are something like the Hyacinth, but the clusters are smaller and the individual flowers are smaller and of different shape. Invaluable for naturalizing.

Helleborus Niger

The Christmas Rose

This interesting hardy plant can be grown in any sheltered position. It makes an excellent addition to the Rock Garden, as its blooms appear in November and continue to bloom as long as the weather is open. Frost and snow apparently have little effect on its blooming, as whenever a thaw happens in the early Winter, their flowers appear untouched by ice and snow

The color is white, suffused with pink, and if sheltered in a glass coldframe they will turn almost pure white, on stems from 6 to 12 in. in length, flowers from 2 to 3 in The leaves are large and leathery in substance. across.

Ever since the government embargo on all plants, this most interesting plant has been extremely scarce and almost out of the market. We have, for years, been propagating a stock and are now in a position to offer extra large clumps that will bloom profusely late this Fall and into the Winter. See illustration on cover page.

Strong clumps, each \$1.50, doz. \$15.00. Delivery in October.

Iris Germanica German Iris

From the choice of over two hundred varieties, we consider the following to be the best of the lower priced kinds, as they have scored highly wherever exhibited and are all strong growers and prolific bloomers.

In the description, "S" represents standards or upper petals, and "F" represents falls or lower petals.

Prices of the following strong divisions, 2 for 50c., or 20 roots (2 each of the 10 varieties listed) for \$4.00.

NOTE—Owing to the cheapness of the following 10 varieties, we cannot accept orders for less than 2 roots of 1 variety.

Celeste. S, lavender; F, deep lavender; large and free flowering.

Cottage Maid. S, silvery blue; F, white, tipped and reticulated violet.

Mrs. H. Darwin. S, snow-white; F, white, slightly reticulated violet at base.

Mme. Chereau. White, elegantly frilled azure-blue; very beautiful.

Nibelungen. S, olive-green, suffused yellow; F, purple-violet, edged yellow.

Pallida Dalmatica. S, clear lavender; F, deep lavender. Most beautiful.

Princess Victoria Louise. S, light sulphur-yellow: F, rich, violet-red, edged cream.

German Iris

Quaker Lady. S, smoky lavender with yellow shadings; F, Ageratum-blue and old gold.

Queen of May. S, and F, rosy lavender. Rhein Nixe. S, pure white; F, violet-blue; white edge.

Prices of the following strong divisions, 50c. each, \$4.50 for 10.

Aurea. Rich chrome yellow. The finest pure yellow. Cordelia. S, rosy lilae; F, crimson purple.

Darius. S, rich canary yellow; F, lilac, margined white; golden yellow beard.

Dawn. S, and F, sulphur-yellow veined bronze at throat.

Farr's Pauline. S, lavender; F, slightly darker.

Iris King. S, soft old gold; F, rich velvety brown with yellow border.

Mrs. Alan Gray. Delicate rose lilac without veining.

Pocahontas. S, deeply frilled bluish-violet; F, pure white, lightly bordered violet.

Prosper Laugier. S, light bronze-red; F, velvety ruby purple with orange beard.

Parc de Neuilly. Excellent rich purple self.

Prices of the following strong divisions, 75c. each, \$6.75 for 10.

Afterglow. An uncommonly beautiful Iris, the color being a grayish lavender self, shading to yellow at the center.

Lent A. Williamson. A superb flower. S, Campanulaviolet; F, rich deep purple, contrasting yellow beard.
Lord of June. S, pale lavender-blue; F, deep analine-blue. A massive flower of perfect form.

Mme. de Sevigne. A handsome stately Iris, being heavily marked with violet on a white ground.

Mother of Pearl. S, and F, pale bluish-lavender with a faint creamy undertone. Large flowers of exceptional substance and perfect form.

ROOTS READY FOR DELIVERY IN SEPTEMBER

Note.—If German or Japanese Iris are wanted by Parcels Post, add 5c. each for 1st, 2nd and 3rd zones, 10c. each for 4th and 5th zones, 15c. each for 6th, 7th and 8th zones.

Iris Filifolia "Imperator"

The best early flowering blue Iris in existence. A fine forcer. \$2.50 per doz., \$16.00 per 100.

Iris Filifolia "Wedgewood"

Our colored reproduction on the front cover fails to adequately portray the beauty and charm of this exquisite forcing variety. It is best described as a rich delph blue—standards and falls—a yellow blotch at the top of each fall enhancing its beauty. Its early blooming qualities and large flowers on strong stems make it an exceptional cut flower. Each 35c., doz. \$3.50, 100 \$25.00.

Iris, Japanese

The Japan Iris is perfectly hardy and flowers in great profusion in July and August.

The large size of the flowers is noteworthy, as they often reach 6 to 8 inches across in most fascinating combinations.

combinations.

Lucie Marshall. An immense double with six petals of Pansy-violet in color with distinct white veins coming from a golden yellow center. Stems 4 ft. Strong roots, \$1.25 each, \$10.00 for 10.

Prices of the following, strong clumps, 50c. each, \$4.50 for 10

Large individual clumps, \$1.00 each, \$9.00 for 10 Granite. Single, purple spotted and flaked white; lilac center.

Indo. Single, broad, wavy petals of great size; dark blue color with yellow blotch in center.

Mars. Single; reddish-purple, striped and blotched white.

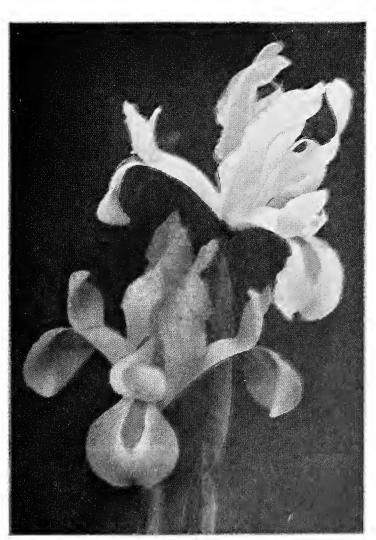

Mount Hood. Double, light blue shaded darker; bright orange center.

Pyramid. Double; violet-purple veined white in center of each petal.

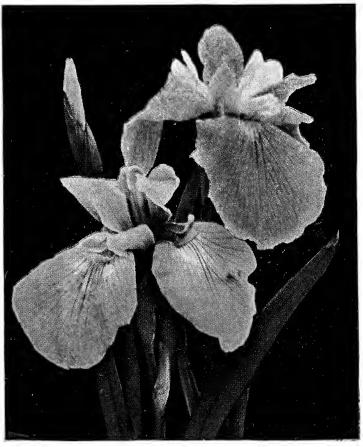

Rose Anna. Double, ivory white, heavy ruby red veins, conspicuous yellow blotch, stigmas dark plum. Prices of the following, strong roots, 75c. each, \$6.75 for 10

Large individual clumps, \$1.50 each, \$13.50 for 10 Azure. Double, immense flowers of mauve-blue with darker halo surrounding the yellow blotch at base of petals.

Beauty. Single, silvery white, distinctly veined and suffused indigo-blue; inner petals plum, edged white. Gold Bound. Double, pure white; one of the best. Kuro-komo. Double, purple overlaid with dark blue; yellow blotches, stigmas dark blue bordered purple. Painted Lady. Single. White, center blotched light Phlox-purple, tufts white, with Phlox-purple edge. Shadow. Single. Self color, reddish purple.

Spanish Iris

Japanese Iris

JAPANESE IRIS, Double and Single Mixed. All colors and shades. Strong roots, \$2.00 per doz., \$14.00 per 100. Large individual clumps, \$4.00 per doz., \$28.00 per 100.

Iris, Spanish

Graceful, slender stems, with loose but beautiful flowers, the charming colors producing a combination not surpassed by an orchid. The finest effects are produced when planted in clumps in the perennial border; flowering period May and early June. They are also excellent for growing in pots indoors or forcing.

We have secured a large quantity of Northern grown bulbs, which although smaller than the California bulbs, are all hard, firm bulbs that will give more and larger flowers.

British Queen. Large pure white.

Cajanus. Canary-yellow with orange-yellow blotch on falls.

Excelsior. Light blue, with deep orange blotch.
King of the Blues. A fine, deep purplish-blue.
Longfellow. Light blue with lighter falls.
Queen Emma. Fine, deep golden yellow.
Reconnaissance. Dark bronze, with golden blotch.
Royal Blue. Clear blue, extra large flower.
Mixed. All colors.

Price of any of the above varieties, 4 bulbs for 50c., doz. \$1.25, 100 \$8.00

Not less than 4 bulbs 1 variety sold

CULTURAL DIRECTIONS FOR FORCING DUTCH AND SPANISH IRIS

If put in boxes be sure that the boxes are 6 inches deep. Put outside and bury in the ground same as Tulips, etc., and bring in later, or they can be put in a cool house 40 to 45 degrees.

Grow on in temperature about 50 degrees until the buds begin to show, then give them 55 degrees.

Bulbs ready for delivery in October.

Iris, Siberian

Narrow, glossy foliage, delicate flowers on tall stems. Excellent for cutting as the blooms keep well in water and can be used with other flowers. Each 10 Each Sibirica orientalis. Purplish-blue. 2 to Sibirica Emperor. Large flowering, of a very fine form and of a deep violet color. \$3.00 9.00 Sibirica Perry's Blue. Lily of the Valley

For forcing, the pips are to be preferred, being grown under conditions tending to promote vigorous and early blooming. Twelve to eighteen pips may be planted in a 6-inch pot, with all the fibrous roots carefully preserved, and keeping the crowns above the soil. Place them in a temperature of about \$50 degrees, cover the crowns with loose moss and 80 degrees, cover the crowns with loose moss and keep them constantly moist with tepid water.

Marshall's Matchless Pips. The earliest, largest and best for forcing. Extra strong pips with long roots producing flowers with 15 to 20 bells and fine foliage. \$7.00 per 100. \$17.50 per 250, \$65.00 per 1000. Beady in December. foliage. \$7.00 per 100, \$17 1000. Ready in December.

Lycoris squamigera

Ixia, Mixed

Leucojum (Spring Snowflake)

Charming, early flowering bulbs, producing flowers like Giant Snowdrops on stems 1 foot high. Perfectly hardy. Doz. \$1.25, 100 \$8.00.

Lycoris purpurea

An introduction from Japan, but now very scarce. The foliage is produced in Spring and ripens up in August, after which the flower stalks appear, producing flowers in clusters of 6 and 8 flowers of 6 petals each. The bud is wine-color changing to royal purple when expanded, giving a startling and beautiful effect. Perfectly hardy. 2 feet high.

Strong Flowering Bulbs. Each \$1.00, doz. \$10.00, 100 \$75.00.

LYCORIS squamigera

A perfectly hardy bulb of the Amaryllis family. They produce attractive green foliage in the early Spring, which later dies away, and about a month later the flower stalks appear, growing about 2 feet high and developing an umbel of large Lily-shaped delicate pink flowers shaded with clear blue.

Extra Large Flowering Bulbs. Each \$1.00, doz.

The Book of Bulbs

A guide to the selection, planting and cultivating of bulbs for Spring, Summer and Autumn flowering and to Winter-long beauty from Bulbs indoors. \$3.00 Postpaid.

Lilium Candidum (Ascension, or Madonna Lily)

This is the old-fashioned garden Lily. The many snow-white flowers bor this Lily most effective. Very large bulbs, ready for delivery in September. The many snow-white flowers borne on a stem 3 to 4 feet high, make

"CONSIDER THE LILIES"

See page 16 for full particulars of this most delightful book on the culture of Lilies.

MARSHALL'S FALL COLLECTION OF HARDY LILIES

We have prepared the following collection of Hardy Lily bulbs for delivery in October, the time for planting. They will produce an abundance of blooms during the entire season, beginning with L. elegans in June and finishing with the handsome L. speciosum in September, and if left undisturbed will increase from year to year.

Three good flowering bulbs of each of the following handsome varieties in a wide range of colors:

- 3 Batemanniae, apricot.
- 3 Canadense, yellow.
- 3 Elegans atrosanguineum, red.
- 3 Martagon, purple.
- 3 Monadelphum, yellow

- **3 Pardalinum**, orange.
- 3 Regale, white.
- **3 Speciosum rubrum,** rose and white.
- 3 Tenuifolium, coral red.
- 3 Umbellatum grandiflorum, orange.

A total of 30 bulbs at the catalog value of \$14.85

THE ABOVE COLLECTION, including our book "CONSIDER THE LILIES" (see page 16) SENT POSTPAID TO ANY PART OF THE U. S. FOR \$12.00

1/3 of the above collection with Lily Book for \$4.50

MARSHALL'S MATCHLESS LILIES

Lilium Chalcedonicum

"Consider the Lilies"

Is the title of a book which we have published, at considerable expense, and which as indicated by the title—is devoted entirely to Lilies.

Within its 86 pages is unfolded a most delightfully entertaining and authoritative treatise on these "aristocrats of the garden." It covers in great detail, the history, description, as well as planting and cultural directions of over 110 varieties with beautiful, true to life, colored reproductions of the majority of the Lilies described.

That this book has been a labor of love for the author—Mr. W. E. Marshall—is evidenced in great fund of information it embodies. To the amateur it points out the ways to avoid the pit-falls that the culture of Lilies holds for the uninitiated; to the pro-

fessional gardener it will be most welcome, as it treats of a host of delightful, little known Lilies which are as easily grown as the commoner kinds. It will be helpful to the nature lover who will find it invaluable in classifying the Lilies encountered in his journeys.

It is the book par excellence for those whose "dream gardens" are in the making, for it will help them to transmute their dreams into realities.

The above book will be sent postpaid to any address in the United States upon receipt of \$1.00. Upon request it will be sent FREE with orders for Lilies amounting to \$3.00 or more.

Marshall's Lily Food

Lilium Henryi

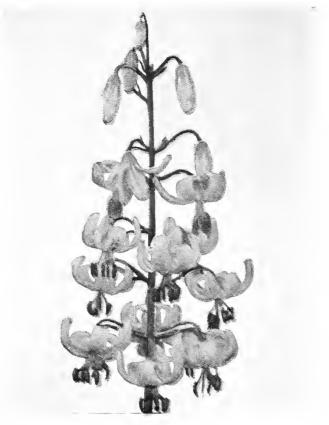

Hardy Lilies

Among the stateliest of all hardy plants, Lilies during their respective flowering seasons, constitute the chief attraction in the hardy border. They prefer a well drained soil and succeed best if planted in the Fall.

All bulbs offered by us are flowering size. Some of these may be quite small while others are large owing to the nature of the Lily. By noting in the column "Size of bulb" we have tried to give the purchaser an approximate idea of what to expect. The figures give the size in circumference. For instance 9–11 means that the bulbs are 9 to 11 inches in circumference.

In the column "Delivery time" we are stating the approximate time of delivery of bulbs. Where we state Dec. it means that these bulbs arrive from Japan too late to plant outdoors in this latitude but anyone desiring them at that time may have them; otherwise we place them in cold storage for early Spring delivery.

GARDEN CINDERELLAS

How to Grow Lilies in the Garden

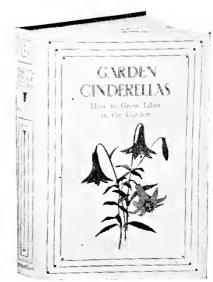

By HELEN M. FOX

Foreword by E. H. Wilson, keeper of the Arnold Arboretum

"The most exhaustive and comprehensive volume on Lilies which has yet appeared, and in addition, it is good literature."—Horticulture.

The Florists Exchange says of the chapters on the different Lilies: "Packed between pages 142 and 249 is all the data any ordinary individual can desire; from these pages alone one can learn the names of every Lily in cultivation, its native habitat, season of blooming, and so forth." The propagation methods and directions for growing given here are invaluable.

269 pages; 4 color plates, 29 halftones, 18 line drawings; 6 x 8¾ in.; Cloth; \$5.00

Peonies in September)

The roots we offer in the following list are all flowering The two-year-old roots have from two to five eyes and the four-year old roots have from five to eight eyes; the four-year-old roots being particularly recommended where an abundance of flower is desired the first season after planting.

The best time to plant is September, when we will be prepared to make delivery.

Prices of the following: 2-year-old roots, 50c. each, 10 varieties, 1 of each for \$4.50; 4-year-old clumps, \$1.00 each, 10 varieties, 1 of each for \$9.00.

Alexandre Dumas. Rose interspersed with salmonchamois; early.

Duchesse de Nemours. Pure white with sulphur collar; early.

Edulis Superba. Dark pink, even color; early.

Festiva Maxima. Pure white with crimson markings in center; early.

Lady Bramwell. Soft silver pink; midseason.

Marguerite Gerard. Salmon-pink shading almost to white; late.

Pale lilae pink with silvery reflex. Mme. Bollet.

Mme. de Verneville. Large, very full, white flowers. Blush center with carmine specks Early.

Mme. de Galhau. Pale lilac-rose with rose-white collar; late.

Queen Victoria. Large, globular, low crown, milkwhite, tinted flesh, center cream-white with crimson spots.

Prices of the following: 2-year-old roots, \$1.00 each, 10 varieties, 1 of each for \$9.00; 4-year-old clumps, \$2.00 each, 10 varieties, 1 of each for \$18.00

Albatre. Milk-white shaded ivory; center petals tinted lilac; midseason.

Augustin d'Hour. Dark brilliant solferino-red; silvery reflex.

Couronne d'Or. Pure white with ring of yellow stamens, center petals tipped carmine; late.

Dorchester. Pale pink; late.

Eugenie Verdier. Pale hydrangea pink, center deeper, flecked crimson; midseason.

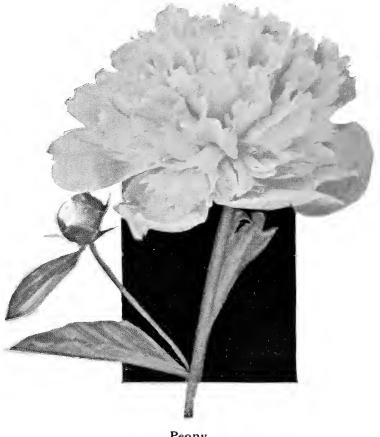

L'Indispensable. Lilae-white, fading to violet-rose towards center; late.

Marie Lemoine. Pure white with cream-white center with carmine tips; fragrant; very late.

Mme. Calot. Very pale pink shaded darker in center; early.

Mme. Crousse. Pure white, center flecked with crimson. Midseason.

Mons. Krelage. Solferino-red with silver tips; late.

Peony

Prices of the following: 2-year-old roots, \$1.50 each, 10 varieties, 1 of each for \$13.50; 4-year-old clumps, \$3.00 each, 10 varieties, 1 of each for \$27.00

Albert Crousse. Rose-white, flecked crimson, fragrant; late.

Asa Gray. Pale lilac sprinkled with dots of deeper lilac; midseason.

Baroness Schroeder. Flesh-white fading to milk white, very large; midseason.

Felix Crousse. Large, very brilliant red; midseason.

Germaine Bigot. Pale lilac-rose, center flecked crimson. Midseason.

James Kelway. Rose-white changing to milk-white; early.

Mlle. Desbuisson. Violet-rosc, fading to milk-white in center; late.

Mme. Emile Galle. Lilac-pink, changing to milkwhite in center; late.

Mons. Jules Elie. An ideal, glossy lilac-pink, shading to deeper rose at base; early.

Octavie Demay. Pale hydrangea-pink, collar almost white; early.

Paeonia Officinalis

The old-fashioned, fragrant early flowering Peony which still maintains a high place in the esteem of flower lovers.

Prices of the following two varieties:

Large Clumps, each \$1.00, 10 for \$9.00

Large, double, white flowers of fine texture and habit of growth. May. Rubra Plena. Large, globular, double flowers of crimson red. May.

Note.—If Peonies are wanted by mail, add 5c. each for zones 1, 2, 3; 10c. each for zones 4, 5, 6; 15c. each for zones 7 and 8.

We also publish a General catalogue, a Rock Plant catalogue, Lilac list, and a special list devoted to Trained Fruit Trees. We will be pleased to send them to interested clients upon application.

534

Nerine

Fothergilli major. A magnificent plant for house or conservatory. Intense, shining scarlet. By artificial light the crystalline cells of the petals sparkle like jewels. Flowers freely. Each \$1.50.

Sarniensis (The Guernsey Lily). A bulbous plant for greenhouse or conservatory, producing heads of red flowers before the leaves. Each 25c., doz. \$2.00, 100 \$15.00.

Ornithogalum Arabicum

A splendid bulb for indoor culture either for cut flower use or conservatory decoration. The flowers are white with a contrasting black center and possess a distinctive fragrance. 3 for 60c., doz. \$2.00, 100 \$14.00.

THE BOOK OF BULBS

A very useful book for all lovers of bulbs and their cultivation. Price \$3.00 postpaid.

Spiraea

Spiræa, or Astilbe

We will be able to supply, in October, a fine lot of well ripened clumps of some of the best varieties of the new Spiræas. These clumps will be suitable for 7-inch pots, and will force readily for Easter or earlier.

Gladstone. Double white.

Queen Alexandra. Bright pink. One of the best. Strong forcing clumps, each 80c., doz. \$9.00.

NEW VARIETIES

Amethyst. A tall-growing, later variety, with full, feathery plumes of lavender-rose. The most striking color of all Spiræas.

Pink Perfection. Earliest and freest flowering of all the pink varieties. Color is a deep rose with lilac cast.

White Plume. A pure white variety. An early forcer. Tall and graceful grower.

All new varieties, strong, field-grown clumps, \$1.25 each, \$12.00 per doz.

If wanted by mail, add 10c. each for postage in zones 1, 2, 3; 15c. each in zones 3, 4, 5; 20c. each in zones 7 and 8.

Ready for delivery in October.

"SPRING FLOWERING BULBS" By Clark L. Thayer

A new book on an old subject, but which presents some very interesting and authoritative facts regarding the culture of bulbs which will be welcomed by professional and amateur alike. A small book containing a vast fund of information

Price \$1.25, postage, 10c. extra

Trillium

(American Wood Lily)

Most beautiful American plants, perfectly hardy, growing and flowering profusely in partially shaded nooks about the lawn, under trees, etc.

Erectum. Broad leaves with a dark purple flower. **Grandiflorum.** Large white flowers changing to soft

Stylosum. Pink flowers in early Spring.

Any of the above, doz. \$1.00, 100 \$7.00, 1000 \$60.00.

Roots ready for delivery in October.

Tritonia Crocata

This interesting bulbous plant is commonly known as the Orange Ixia, which it resembles. Very floriferous. Orange red. Good forcer. Delivery in October. Doz. \$1.00, 100 \$7.00.

Watsonia

A lovely plant for pots and pans in the cool green-house. The graceful branches grow from 2 to 3 feet high, covered with elegant blossoms.

THE BOOK OF BULBS

A very useful book for all lovers of bulbs and their cultivation. Price \$3.00 postpaid.

Trillium grandiflorum

Pot-Grown Strawberry Plants

For Summer and Fall Delivery

The best time to plant pot-grown Strawberries is during the month of July and early part of September. They have the great advantage over "layer" plants of producing a crop of the largest and finest berries the first season after planting. Further than this, they may be safely planted in the hottest and driest weather without serious check to growth, and may be planted where early Potatoes, Peas or other early crops have been harvested. All varieties of Strawberries give the greatest yield and the largest berries when grown in rich soil, hence no pains should be spared in preparing the bed carefully before planting, by digging or plowing deeply and turning under a liberal application of well-rotted manure.

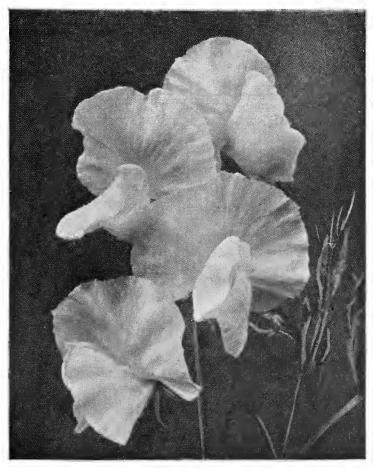

| Extra Early Varieties | Midseason Varieties |
|--|--|
| Charles I. Extra early, being one of the very first varieties to mature fruit. A big cropper of evenly shaped, well-colored berries. Because of its extra heavy root system, will withstand drought bet- | Brandywine. An old variety but still popular. The plants produce large, bright crimson berries of good flavor. For best results it requires deep rich soil\$2.00 \$7.00 Bushel Basket. This is a veritable giant |
| rer than almost any variety\$2.00 \$7.00 Premier. A vigorous grower, doing well on all types of soil. The plants are enormously productive, commencing very early and bearing through a long season. The berries are beautiful in appearance. | and is creating a genuine sensation. It is an immense plant and the fruit, though unusually large, is freely produced and of fine quality |
| having a glossy, rich red color, and are delicious in quality | are truly delicious, and of very attractive appearance |
| Medium Early Varieties 25 100 Cooper. Makes vigorous plant growth. Berries are large in size, and of high quality, but are too soft to be used for | really worth while Strawberries introduced of late. It yields large berries in greatest profusion and their dark red color easily makes them one of the most desirable for canning |
| shipping | any Strawberry in existence. The berries are of a very dark color, are bluntly heartshaped, and are as large as small apples. 2.50 9.00 Glen Mary. Wonderfully high quality and great productivity are the laudable quali- |
| John H. Cook. The berries are nearly round in shape, of excellent quality, blood red in color and very firm. An enormous cropper with delicious flavor | ties of this berry; it is also a fine strong grower, and among the most prolific 2.00 7.00 Howard No. 17. The plants of this variety are strong and vigorous. They keep green and healthy after yielding the |
| on almost any soil. It is a large cropper with firm berries of good flavor 2.00 7.00 | largest crop. The berries are large and beautiful and of the highest quality 2.00 7.00 |

MARSHALL'S LAWN GRASS

MARSHALL'S "SPECIAL" LAWN GRASS MIXTURE

Marshall's Special Lawn Grass Seed produces a perfect and enduring lawn of luxuriant richness with closely interwoven, firm and elastic turf, and it is usually ready for cutting in six weeks from time of sowing. This lawn grass is composed of a combination of various fine-leaved, deep-rooting grasses of interweaving habit, that flourish under our varied conditions, soils and climates, growing during different seasons of the year so that a deep green, smooth and velvety sward, free from clumps, is maintained without burning brown in Summer.

Price: Lb. 70c., 5 lbs. \$3.25, 20 lbs. \$12.00, 100 lbs. \$60.00.

MARSHALL'S "CENTRAL PARK" LAWN GRASS

Marshall's Central Park Lawn Grass will produce an even, dense growth of permanent sward as early in the season as it is possible to do. This mixture contains no annual grasses for making quick show to the detriment of a good lawn, but only those of lasting value and hardiness, which, when once established, need no reseeding for years. Our seed, which we know to be as pure as can be found anywhere, is of the best varieties, best suited for even and permanent growth; it is carefully cleaned and free as it is possible to make it from foreign matter.

Price: Lb. 50c., 5 lbs. \$2.10, 20 lbs. \$8.00, 100 lbs. \$40.00.

MARSHALL'S "SHADY PLACE" LAWN GRASS

Usually it is quite difficult to obtain a satisfactory growth of grass under trees and in shady places; for sowing in such places we recommend the use of this special mixture. It will quickly produce an abundant and even growth of beautiful green grass. The grasses used in making this special mixture are only those adapted for growing in shade. It has been successfully used on some large operations where a green sward was desired on land partially shaded by old trees.

Price: Lb. 70c., 5 lbs. \$3.25, bu. 20 lbs., \$12.00, 100 lbs. \$60.00.

MARSHALL'S SUNNY SOUTH LAWN GRASS

A specially prepared mixture of grasses adaptable for growing in the southern states.

Price: 5 lbs. \$3.00, 20 lbs. \$10.00, 100 lbs. \$40.00.

MARSHALL'S PUTTING GREEN, or TENNIS COURT MIXTURE

A very carefully prepared mixture for use on putting greens, croquet lawns, tennis courts, bowling greens and lawns. This mixture produces a very thick, soft growth, when sown on a well-prepared ground, and mowed short will allow a ball to roll in almost a direct line. We especially recommend this mixture to those who are particular to obtain the very best. Our mixture contains only the very fine-bladed species of grasses without Rye Grass. 25 lbs. will seed a putting green 75 feet square.

Price: 5 lbs. \$4.00, 25 lbs. \$17.50, 100 lbs. \$70.00.

CX.

GRASS SEEDS For Pasture and Mowing

Canadian Blue Grass (Poa compressa). A more rapid grower than Kentucky Blue Grass. This is an excellent pasture grass for poor, dry land and should be more largely used for this purpose. Lb. 45c., 100 lbs. \$35.00.

English Rye Grass (Lolium perenne). Produces a strong growth in four or five weeks after sowing It cures into a hay that is rather hard, but having a sweet flavor and much relished by cattle and horses. Sow 60 lbs. to acre. Lb. 35c., 100 lbs. \$24.00.

Kentucky Blue Grass (Poa pratensis). A very widely distributed species, and without a rival as a pasture grass. Being of perennial habit, it will, when established, last indefinitely. Lb. 50c., 100 lbs. \$40.00.

Orchard Grass. A good grass for hay crop, yielding nearly the same amount as Timothy and almost equal in feeding value. Orchard Grass will grow on almost every soil. It prefers a moderately dry soil with considerable sandy material. One of the best grasses for sowing in shady places and among fruit trees in orchards. 35 to 40 lbs. required for one acre. Lb. 50c., 100 lbs. \$40.00

Red Top, Fancy Cleaned (Agrostis vulgaris). A highly recommended grass for permanent pasture and as meadow grass for hay. Red Top is especially valuable for sour and acid soils, and meadow lands. Use 14 to 16 lbs. to acre. Lb. 60c., 100 lbs. \$50.00.

Timothy, or Herb Grass (Phleum pratense). The standard hay of commerce. The excellent quality of the hay and the ease of culture make it valuable. It is adapted to most soils, but succeeds best on moist loam and clay. Timothy sown alone requires about 20 lbs. per acre; when sown with Red Clover use 15 lbs. Timothy and 5 lbs. Red Clover. Lb. 20c., 100 lbs. \$11.00.

MIXTURES FOR HAY AND PERMANENT PASTURES

The results obtained from our special grass seed mixtures are well known by the constantly increasing demand for them. Fall seeding is preferable, but Spring sowing will be successful if done early, while the land is cool and moist. In addition to the grasses, we advise sowing 10 lbs. of Mixed Clover Seed per acre.

We recommend sowing 50 to 60 lbs. to the acre.

PERMANENT PASTURE MIXTURE NO. 1. For cool and light soils. Bus. (15 lbs.) \$6.75, 100 lbs. \$45.00. PERMANENT PASTURE MIXTURE NO. 2. For medium soils. Bus. (15 lbs.) \$6.75, 100 lbs. \$45.00. PERMANENT PASTURE MIXTURE NO. 3. For heavy soils. Bus. (15 lbs.) \$7.50, 100 lbs. \$50.00.

RYE

For grain, 1 bushel to the acre; for forage or soiting, 1½ bushels, 56 lbs. to the bushel.

Rosen. An early ripening variety with large, plump, heavy grain. Vigorous stooling makes only 1½ bus. per acre sufficient for planting. Bus. \$4.00.

Giant Winter. Produces stalks of great length, yields well and stands up nicely. Bus. \$3.50.

VETCHES OR TARES

Winter Vetch (Vicia villosa). Recommended as the best green manure producing crop, also as a feed for stock in the early Spring. Sow with Winter Wheat or Rye, using 30 to 50 lbs per acre. Lb. 40c., 100 lbs. \$28.00.

WHEAT

The seed Wheat we offer is grown in Pennsylvania by a very reliable grower, especially for seed purposes. Sow $1\frac{1}{2}$ bushels to the acre.

Forward. A new, smooth, chaff variety developed at Cornell University, proven very hardy. Long straw, with large, dark colored grain. Ripens medium early.

Leap's Prolific. One of the best smooth chaff varieties. A hardy, regular and abundant yielder which ripens early.

Pennsylvania 44. An excellent bearded, white chaff variety. Produces extra good crops of grain and straw. Proved to be the best producer at Penn. State College Experiment Station.

Orders taken for Wheat at prices ruling at time of shipment

Anchusa myosotidiflora

The Hardy Perennial Forget-me-not Anchusa

The great adaptability of this recent acquisition is little known at present. It is unique as the only hardy plant that has a true blue flower early in the Spring. It can be used in the open border or for forcing in the greenhouse and grown equally well in the sun or shade. Clusters of bright blue Forget-me-not flowers are borne early in May in great profusion. The foliage is a dark green, growing not higher than 10 to 12 inches. It makes an ideal plant for bordering beds of Tulips. We offer an exceptionally fine strain of this novelty in large clumps. Each 60c., 10 for \$5.50, 100 \$50.00. Delivery free.

KURUME AZALEAS

These are a valuable addition to the hardy and forcing class of Azaleas.

Bridesmaid. Glowing salmon flowers.

Christmas Cheer. A real Christmas red.

Coral Bells. A pleasing coral-pink color shading deeper in the center; very dainty.

Lavender Queen. A fine shade of light lavender with white stamens.

Orange Beauty. Orange-pink. Flowers in immense clusters almost as large as Rhododendrons.

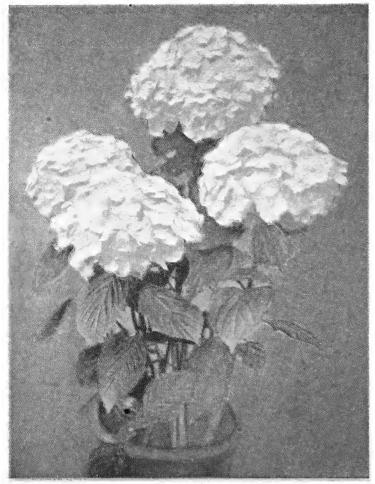

Pink Pearl. A beautiful salmon-rose, shading lighter in the center; large full trusses.

Salmon Beauty. An exceptionally fine shade of salmon-pink, with large, individual flowers.

Vesuvius. Fiery salmon-red, with slightly darker blotch. Dark green, glossy foliage.

3-year-old pot grown plants, each \$3.00.

MARSHALL'S PLANTS

Forcing Hydrangea

CAMELLIAS

These beautiful greenhouse shrubs are now coming back into favor again. Their large, attractive waxlike double flowers, combined with their glossy, dark green foliage, makes them most attractive and useful plants for house decoration

Strong, healthy plants in 6-inch pots, in the following separate colors:

All Double Varieties: Red, Red and White with Pink, Red and Pink, Pink, Pink Imbricated Flower, White, Salmon. Each \$8.00.

Collection of 10 Named Varieties, 6-in. pots. \$10.00 each.

ERICA

"New Christmas Pink"

A new, long blooming Heather of great charm and beauty. Splendid for either indoor forcing or for a sheltered spot out-of-doors. The profusion of flowers completely hides the foliage during the blooming period. When forced indoors it blooms at Christmas. Bright pink. 3½-in. pots, \$10.00 per doz., \$75.00 per 100.

ERLANGEA TOMENTOSA

(Ageratum Blue)

A beautiful Winter flowering plant with clusters of blue flowers resembling the Eupatorium. Foliage sweet scented. 25 for \$7.00, 100 \$20.00.

EUPATORIUM GRANDI-**FLORUM**

Beautiful white flowers resembling Ageratum. Fine for cutting in the Winter season. 25 for \$6.00, 100 \$20.00.

EUPHORBIA JACQUINIAE-FLORA

A very useful plant for Midwinter flowering with graceful sprays of orange-scarlet flowers. 25 for \$9.00,

Genista. (Racemosa)

A well-known greenhouse plant for Winter flowering, with long racemes of yellow flowers. Plants in 5-in. Each \$1.50.

New Large Flowering GERMAN HYDRANGEAS

This new type of forcing Hydrangeas is far superior to the French varieties. They are much easier to grow. The flowers are much larger and the coloring is much more brilliant.

Almost red, with slight white margin. Freya. Glossy earmine, compact grower.

Odin. Deep carmine. Very early flowering.

Peer Gynt. Carmine rose, vigorous grower.

Prices of above, Summer delivery, 2½-in. pots, \$10.00 per doz., \$70.00 per 100.

Fall delivery, 4-in. pots, \$1.50 each, \$15.00 per doz.

STANDARD GERMAN VARIETIES

Elmar. A beautiful carmine red Gudrun. A compact growing light pink. Helge. An exceptionally fine bright dark red. Lancelot. Prettily fringed deep bright pink Loreley. Brilliant carmine red. Wilhelm Pfitzer. Free flowering light pink. Prettily fringed deep bright pink. Prices of above, $2\frac{1}{4}$ -in. pots, doz. (2 of each 6 vars.)

\$6.00, 25 for \$12.00

Erica, Christmas Pink

150 WEST 23d STREET, NEW YORK

Primula

Malacoides. Delicate lilac. 25 for \$3.50, 100 \$12.00. Malacoides, American Legion. Large, clear pink, yellow center. 25 for \$4.50, 100 \$16.00.

Malacoides Lelandi. A beautiful lilac-pink with large yellow eye. 25 for \$3.50, 100 \$12.00.

Malacoides, King Albert. Pink. 25 for \$3.50, 100

Malacoides, Princess Mary. Bright pink. 25 for \$3.50, 100 \$12.00.

Malacoides, Radio. Fringed, clear rose. 25 for \$4.00, 100 \$15.00.

Malacoides townsendi. 25 for \$4.00, 100 \$15.00. **Obconica grandiflora.** 25 for \$3.50, 100 \$12.00.

All of the above are plants from 21/2-in. pots.

Violets

Plants for coldframes and cool greenhouses.

Governor Herrick. Single blue.

Marie Louise. The best double blue.

Princess of Wales. Single blue.

Field grown plants. Ready in September.

Doz. \$3.50, 100 \$25.00; by express only.

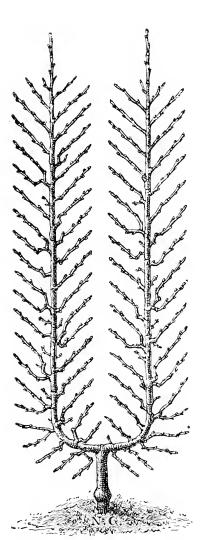

Mrs. David Lloyd George. A new single variety. Large, fragrant flowers on long stems.

Swanley White. Double white.

Doz. \$4.50, 100 \$40.00

Primula Lelandi

Wide U-Shape

TRAINED FRUIT TREES

The special "dwarfing" stocks upon which they are grafted prevent vigorous "lateral" growths, and by careful pruning they will develop fruit spurs over the complete length of the main stems, thus keeping the trees shapely and well provided

Styles of Trained Trees. We offer three distinct types of trees, namely: (1) Upright Single Cordon; (2) U-shaped or Double Cordon; (3) UU-shaped or Palmette-Verrier.

APPLES

| | BUDDED | ON PARADISE | | |
|------------------|--------|-------------|-----|----------|

|---------------|--------------|-----------------|--------------------|

PEARS

BUDDED ON QUINCE

| Single Cordon, 3 to 4 ft | Each | \$3.50 |
|--------------------------|------|--------|
| U-shaped | Each | \$6.00 |
| Palmette-Verrier | Each | 10.00 |

A list of the varieties and full description of the above will be mailed free on request.

16.

Hyacinth Glasses

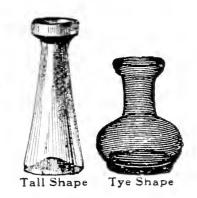

Hyacinths can easily be grown in water, and it is rather a novelty to grow them in this way.

We offer the following two kinds of glasses to be used for this purpose:

Tall Shape. In various colors. Each 40c., doz. \$4.00.

Tye Shape. In various colors. Each 45c., doz. \$4.50.

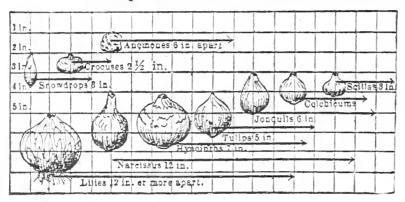

If wanted by mail, add 10c. each for postage.

Planting Table for Beds of Bulbs

A circular bed 6 feet in diameter, with bulbs 6 inches apart, requires 110 bulbs; 5 inches apart, requires 160 bulbs; 4 inches apart, requires 300 bulbs.

Depth at Which Bulbs Should be Planted

Many of our customers are frequently puzzled to know the proper depth and distance apart at which bulbs should be planted. The accompanying diagram, reproduced from Popular Gardening, conveys the information much more clearly and briefly than we could describe it. The chart will bear careful study. Outdoor planting should be done early in the Fall to secure healthy plants, vigorous foliage and beautiful flowers.

Summer-Autumn
Ground Dressing and
Soil Disinfectant

Terogen destroys the spores of fungi of most diseases that have fallen to the ground, as well as the larvae of most insects, including the rose pith borers, rose bugs, aphides and most beetles. Terogen also acts as a valuable fertilizer. Makes sturdy, healthy foliage and helps to prevent chlorosis. In convenient semi-powdered form. It is well to begin using this dressing during the Summer, which will lessen the possibility of black spot and mildew appearing in the Fall. 1 lb. 75c., 2 lbs. \$1.25, 5 lbs. \$2.75, 10 lbs. \$4.75, 25 lbs. \$11.00, 100 lbs. \$40.00

Peat Moss. Torf Mull

Granulated Peat Moss should be used liberally about the garden, greenhouse for pot plants, window boxes and growing bulbs, etc.

It is also useful for mulching perennial beds lawns. Boses Strawberry beds and

It is also useful for mulching perennial beds, lawns, Roses, Strawberry beds and mixing with sandy or clayey soils.

Small bale, enough to cover 16 sq. ft. 1 in. deep, \$1.50: weight 12 lbs.; add postage at Zone rates if wanted by Parcels Post.
